Summary of the Student Protection Plan

This Student Protection Plan relates to the newly merged BCNO Group Ltd Limited. This merger brings together two long standing providers of osteopathic training and the BCNO Group Ltd Ltd will retain the existing trading names of British College of Osteopathic Medicine (BCOM) and the European School of Osteopathy (ESO). Up until the time of the merger, both institutions held OfS registration with approved Student Protection Plans. The merger took effect from 1st September 2021.

As a registered provider of higher education, the BCNO Group Ltd Ltd is required to publish a Student Protection Plan (SPP) which sets out how we will ensure that the quality of study will be maintained and students can continue to study even if a provider, campus or course closes.

This SPP is specific to our individual circumstances and sets out the measures the BCNO Group Ltd has put in place to protect you as our student in the event that a risk to the continuation of your current or planned studies should arise due to our failure or a decision we take. This SPP has been approved by our regulator, the Office for Students (OfS) and it addresses circumstances and risks specific to the BCNO Group Ltd.

Summary of significant changes since the last version

- a) Risk 5: The closure of buildings has been changed from Likely to Very Likely in view of the Covid-19 pandemic

Scope

What this document covers

This SPP applies to all students registered with the BCNO Group Ltd, whether they are studying at the BCOM London or ESO Kent site.

What this document does not cover

Risks to students' continuation of study due to students' own circumstances (e.g. due to personal reasons) are outside the scope of the SPP. The BCNO Group Ltd Ltd has a number of policies and procedures in place to support students who have difficulty in continuing study as a result of personal circumstances. These can be found on the Digital Learning Environment

Related Documentation

Please refer to the following documentation in conjunction with this document

- Academic Regulations (University of Plymouth or Bucks New University)
- Refund and Compensation Policy
- Student Complaints and Appeals Procedure
- Study and Wellbeing Policy

- Student Handbooks

Introduction

This SPP sets out the actions The BCNO Group Ltd Ltd has in place to protect you as our student in the event that a risk to the continuation of your studies should arise. It has been approved by the Office for Students (OfS) and is available to both current and potential students at all levels of study.

The actions contained in this SPP are in addition to the protections you have under Consumer Protection Law and do not affect your consumer rights.

For specific guidance on how this SPP may relate to your personal circumstances please contact Registry at the BCNO Group Ltd.

Student Protection Plan for the academic year 2021-22

1. Provider Details

Providers Name: BCNO Limited Osteopathy Ltd, trading as the British College of Osteopathic Medicine (BCOM) and the European School of Osteopathy (ESO)

Providers UKPRN: 10000911

Legal Address: Frazer House, 6 Netherhall Gardens, London, NW3 5RR

Contact point for enquiries about this plan: Sue Kendall-Seatter (Head of Quality)

2. Purpose

The BCNO Group Ltd Ltd recognises that students invest significant amounts of financial resources, time and commitment to their studies and in return expect to receive value for money. The BCNO Group Ltd Ltd is fully committed to supporting students in their studies to achieve the best possible outcomes in terms of training, for a future career as an osteopath and in their academic studies.

The purpose of this SPP is to provide assurance to you and our regulator, the OfS, that The BCNO Group Ltd has appropriate arrangements in place to ensure the continuation of study for all our students.

The BCNO Group Ltd will take all reasonable steps to implement the provisions of the SPP if the risks set out in the plan materialise and we will inform the OfS of our actions in accordance with the OfS Regulatory Framework

The measures contained in this SPP are in addition to the protections you have under consumer protection law and do not affect your customer rights.

This plan has been submitted to the Office for Students (OfS) and is available to

all existing and potential students and forms an important part of the terms and conditions of your study.

3. Principles

We commit to:

- Being open and transparent in our communication with you, should any risk to the continuity of your study arise
- Informing you of material curriculum changes affecting your study in a timely manner
- Taking reasonable steps to protect your studies should we discontinue or substantially change a module or qualification on which you are registered or enrolled.
- Taking into consideration your needs and the impact that any proposed changes and protective measures may have on you
- Informing the OfS of any changes that may necessitate a review of this SPP or events, except for the closure of an individual course, that require implementation of the provisions of this SPP
- Seeking students' views on this SPP as part of our student feedback processes.

4. Identification of Risks

The SPP plan identifies the following range of risks and their impact to the continuation of study for the BCNO Group Ltd students that may arise and assesses the level, the likelihood and impact should any of these arise:

1. Institutional Closure: the BCNO Group Ltd is no longer able to operate or has decided to cease trading
2. Programme Closure or change in delivery: The BCNO Group Ltd is no longer able to deliver material components of one or more of its provision
3. Programme or Module amendment
4. The BCNO Group Ltd is no longer able to deliver its programmes either on a permanent or temporary basis due to the revoking of its Study Route Visa licence.
5. The closure of buildings
6. The BCNO Group Ltd is no longer able to offer its provision due to the validating and/or accrediting professional bodies withdrawing validation

Explanation: Risk is what might happen, likelihood is the chances of it happening and impact means the scale of the effect - if it does happen. The BCNO Group Ltd has assessed the above risks to continuation of study and classified the likelihood of them happening using this sliding scale.

- Very unlikely: an event may occur only in exceptional circumstances (chance less than 10%);
- Unlikely: an event could occur at some time (chance between 10-30%);
- Possible: an event should occur at some time (chance between 30-50%);
- Likely: an event will probably occur (chance between 50-90%);
- Very Likely: an event is expected (chance more than 90%).

The BCNO Group Ltd has also classified impact on a sliding scale.

- Insignificant: resolution would be achieved during normal day to day activity;
- Minor: resolution would require coordinated input from faculties and service areas;
- Moderate: resolution would require input from a dedicated project team;
- Major: resolution would require input from the validating body, the University of Plymouth or Bucks New University
- Extreme: resolution would require input from the University of Plymouth and the Board of Trustees

Risk 1: Institutional Closure

The BCNO Group Ltd is a specialist Independent Higher Education (HE) Institution which offers University level courses for aspiring osteopaths. From 1st September 2021, the Group consists of the British College of Osteopathic Medicine (London) and the European School of Osteopathy (Kent).

BCOM was founded 80 years ago and moved to its current location in Hampstead in 1953 when Frazer House became the permanent home. Lief House was added in 1996 and the two sites were linked to form a dedicated centre for naturopathic and osteopathic teaching, research and clinical provision.

The ESO was founded 70 years ago and moved to its new premises at Boxley House in 1996, and retained the site in the town centre where it runs a successful training clinic.

The freehold titles of all buildings are owned by the Group..

The risk of The BCNO Group Ltd as a whole being unable to operate is low.

Existing London based students and all students from 2022 will come under the auspices of the University of Plymouth University which has ultimate responsibility for the academic provision of the BCNO Group Ltd. There is in place an 'Agreement of Academic Co-operation' which covers the 'teach out' of existing students until their graduation, in the unlikely event of the college closing. Current

Kent based students at the ESO site are protected by the Memorandum of Collaboration in place with Bucks New University. From 31st August 2021, an exit strategy has been approved to oversee the Teach Out of this programme.

In addition to the Plymouth one there are reciprocal agreements with other Osteopathic Educational Institutions to take students if required.

The BCNO Group Ltd also has a business continuity plan in respect of a major disaster.

Risk 2: Programme Closure

The BCNO Group Ltd believes that the risk of closure for our well established programmes in Osteopathy is low. Programmes are reviewed regularly to ensure that they stay up to date with the needs of the profession and there is demand for the programme from applicants together with a strong core team of staff to deliver and expand the programmes in line with student needs. The current BCOM programme was recently validated (2016) and in 2017 and 2018 the College successfully underwent both QAA and General Osteopathic Council (GOsC) recognised qualification status and Programme Review at the University of Plymouth. The current ESO programme was validated for delivery in 2017, and underwent the same QAA and GOsC scrutiny. Prior to a formal decision being taken there would be extensive discussions between senior management and the validation body (Plymouth) and an agreement in principle required before discussions with relevant parties would be initiated. A programme closure strategy would then be developed with an indicative timetable being drawn up.

From 2021, the ESO programme is in teach out, and is overseen by an Exit Strategy which protects students through bespoke provision for levels 6 and 7, and transfer opportunities for levels 4 and 5.

Following the BCNO Group Ltd making the strategic decision to close a programme due to insufficient enrolments which make it non-viable from an academic, student experience or resourcing perspective it will endeavour to offer existing students a choice to be 'taught out' or to move to another appropriate institution to continue their studies, should the option to continue at the BCNO Group Ltd not be viable. Plymouth University has ultimate responsibility for the academic provision of the BCNO Group Ltd and there is in place an 'Agreement of Academic Co-operation' which covers the 'teach out' of existing students until their graduation, in the unlikely event of the Programme closing. In these cases we will work with our validating partner (the University of Plymouth) and students affected, to develop the most effective solution. Normally this will include an option to relocate study to the University of Plymouth to complete their studies. Where this is the only or preferred solution the BCNO Group Ltd would honour the student fee and would apply the principles in the Refund and Compensation Policy on a case by case basis.

Risk 3: Programme or module amendment

Programmes and their associated modules are reviewed regularly as part of the Annual Monitoring process and at least every 5 years under period review (revalidation). Through these processes, both minor and major amendments could be made which are intended to enhance the student experience. All amendments will be considered by the relevant committees and the student body will be involved in the decision making. It is a possibility that a major amendment could be made to the programme during revalidation but the BCNO Group Ltd and the University of Plymouth have in place mechanisms to protect the student interest in this event.

Risk 4: Loss of Student Route Visa Licence

BCOM and the ESO underwent a successful inspection of our recording and monitoring processes by UKVI (2018 and 2019 respectively). The BCNO Group Ltd is mindful of the responsibilities that are involved and has rigorous processes in place to support students applying and monitoring of attendance once they are enrolled to ensure that we continue to comply with the requirements of our sponsorship licence. In merging the BCOM and ESO bring together their pooled expertise and will manage this function centrally. BCNO has an excellent track record with UKVI and the Head of Admissions works closely with our external legal representative to ensure that they keep abreast of any regulatory changes. Given our established track record, including successful outcomes from the QAA and Home Office reviews, as well as our comprehensive procedures for attendance and progress monitoring, it is unlikely that the UKVI would find it necessary to suspend or revoke our licence. As a result of this we assess the risk of losing our licence as low.

Risk 5: The closure of buildings

On health and safety, academic, student or resource grounds it may be necessary to close a building. Such sudden closure or loss of access to buildings might have risk and impact consequences. Most costs due to permanent loss of equipment and facilities would be covered by insurance but there might be very serious short- or medium-term impacts. The BCNO Group Ltd complies with all relevant health and safety legislation thus minimising the risk of such an occurrence, however it recognises that factors may arise which are beyond our control due to a major incident which could result in temporary closure. Classrooms are available on all four sites, although a reduced service would be offered. Space for clinics and classrooms may be rented on a short-term basis in the local area if required. The BCNO Group Ltd has in place a comprehensive Business Continuity Plan.

The risk that buildings may close due reorganisation of the teaching/administrative facilities in line with the strategic plan to improve the teaching and learning experience is possible as parts of building(s) may be unavailable or closed during the implementation of the improvements.

Risk 6: Withdrawal of Validation/Accreditation

The BCNO Group Ltd has excellent academic standards and well established quality assurance processes as demonstrated in QAA and Programme Reviews. There is provision within the Academic Co-operation Agreement for a notice period to allow for a new validating body to be sought should this be arise. However, the BCNO Group Ltd recognises that a major theoretical risk comes from the sudden loss of accreditation by GOsC or the University of Plymouth. Sudden suspension or withdrawal of accreditation or validation could have massive repercussions on the professional status and business and institutional viability of the BCNO Group Ltd in the medium term, however, the Group is a fiscally and procedurally transparent institution with good governance and high performance at external review, so the associated risk is low.

5. The measures in place to mitigate the identified risks

Note: The BCNO Group Ltd Business Continuity Plan covers mitigating actions affecting business continuity, such as acts of terrorism, damage to buildings or equipment.

Risk 1 Institutional Closure

Likelihood: very unlikely

Impact: Extreme

The risk of being able to operate due to financial instability is low due to our assets and cash reserves. A Business Continuity Plan is in place. In the event of a major disaster which means that the BCNO Group Ltd is no longer able to operate, working in close liaison with the accrediting and validating bodies (University of Plymouth and GOsC), it will take all reasonable steps to maintain continuity of study through a structured 'teach out' process in accordance with the agreed Academic Co-operation Agreement. All programmes will be closed to new entrants and all applicants will be contacted, and marketing and recruitment would be discontinued.

In the short term (< 2 months), emergency accommodation could be arranged on or off site; any longer would require a more permanent solution. This would have significant short- term impacts on most staff and students.

Risk 2: Programme Closure

Likelihood: Unlikely

Impact: Severe

If the BCNO Group Ltd is unable to offer material components of one or more programmes then it will make any amendments in accordance with the agreed quality procedures for major modifications. Prior to any decision there will be local discussions between the Senior Team and with the HEI, the University of Plymouth/Bucks New University. Students will be consulted regarding any proposed changes including the exploration of suitable alternatives.

In the short term should the programme be affected due to estate issues (< 2

months), emergency accommodation could be arranged on or off site; any longer would require a more permanent solution. This would have significant short-term impacts on most staff and students.

The BCNO Group Ltd has established procedures in place in the event of the suspension / closure or change of delivery mode of a programme of study. Where there is a material impact on students, we will mitigate the effect by communicating with them at the earliest possible moment to provide assurance that they will not be adversely affected by the decision and that they will be able to complete their studies.

Wherever possible the BCNO Group Ltd will enable students to complete their programme of study ('teach out'). In doing so the college in partnership with The University of Plymouth/Bucks New University will carefully manage its approach to staffing and other resources to ensure students' studies are affected as little as possible.

Where it is not possible to teach out then the BCNO Group Ltd will consider whether there are options for students to change programmes within the Group or to transfer to complete their programme at another institution.

The BCNO Group Ltd will undertake equality impact assessments to assess the effect on students with different needs, characteristics and circumstances.

If students have applied for a BCNO Group Ltd programme, but have not yet enrolled, they will be notified (in accordance with UCAS deadlines where appropriate) in time for them to source an alternative suitable programme, where relevant,

Where there is disruption to programme delivery, we will normally consider whether it is practicable to make changes to delivery, rather than closing or suspending the affected programme. The actions we will take to minimise disruption may include:

- temporary short-term suspension of programme delivery (e.g. where there is a change in the programme delivery location or staffing, with appropriate actions to mitigate the impact on students);
- changes to the delivery location or method, which may include distance learning;
- changes to the staffing of a programme, including the recruitment of alternative staff, where appropriate (see 2 below);
- offering students the opportunity to transfer to an alternative programme;
- providing reasonable support to students to access a programme run by another provider, including making arrangements for the transfer of their credits and information about their academic progress.

If key academic staff involved in delivering a programme are unavailable, for example as a result of long term sickness, retirement, death or leaving the Group, where possible the BCNO Group Ltd will seek to fill gaps as quickly as possible, by assigning responsibility to other current members of staff from the wider Group

with appropriate skills and experience or recruiting externally, to avoid disruption

Risk 3: Programme or Module Amendment

Likelihood: Unlikely

Impact: Major

Programmes and their associated modules are reviewed regularly as part of the Annual Monitoring process and at least every 5 years under period review (revalidation).

Through these processes, both minor and major amendments could be made which are intended to enhance the student experience. All amendments will be considered by the relevant committees and the student body will be involved in the decision making. It is a possibility that a major amendment could be made to the programme during revalidation but the BCNO Group Ltd and the University Plymouth/Bucks New University have in place mechanisms to protect the student interest in this event.

If major in-year changes are needed to the content of a programmes, the BCNO Group Ltd will use all reasonable endeavours to deliver our programmes in accordance with the description in our prospectus for the academic year in which students began studying. However, in the event of major in-year changes to programme content we will ensure that:

- we restrict changes to the minimum necessary to achieve the required quality of experience, and students are notified and consulted with as appropriate;
- we work with students to ensure the offer is still acceptable;
- where necessary, students will have the opportunity to withdraw from the programme;
- where required, students are offered reasonable support to transfer to another programme, or to another provider. Where appropriate, we would consider financially compensating students when they might suffer demonstrable, material financial loss because of disruption to their studies, under our Compensation and Refund Policy.

Risk 4: Loss of Student Route Visa Licence

Likelihood: Unlikely

Impact: Major

Given our established track record, including successful outcomes from the QAA and Home Office reviews, as well as our comprehensive procedures for attendance and progress monitoring, it is unlikely that the UKVI would find it necessary to suspend or revoke our licence. As a result of this we assess the risk of losing our licence as low

However, should our T Sponsor status be suspended, we will take all reasonable steps to minimise disruption to students by, for example:

- working with UKVI to allow students to complete their year of study or programme;
- allowing students to enrol and commence their studies, if they are already in receipt of a visa based upon an allocated CAS from the BCNO;
- offering students the opportunity to postpone their application pending the resolution of the suspension (if they have not already commenced their travel to the UK)
- where the above is not possible, we would support students to transfer to an appropriate programme at another provider and, where appropriate, financially compensating them where they suffer demonstrable, material financial loss because of disruption to their studies, under our Compensation and Refund Policy.

Risk 5: The closure of buildings

Likelihood: Very Likely

Impact: Moderate

The risk that buildings may close due reorganisation of the teaching/administrative facilities in line with the strategic plan to improve the teaching and learning experience is possible as parts of building(s) may be unavailable or closed during the implementation of the improvements. Classrooms are available on all sites, although a reduced service would be offered. Space for clinics and classrooms may be rented on a short-term basis in the local area if required. The Group has in place a comprehensive Business Continuity Plan.

Should the BCNO Group Ltd have to close part or all of a campus or if it becomes unusable for student activity, we will typically consider remedies such as:

- relocating provision to an alternative suitable location. This may include hiring spaces for programme delivery (where possible) and/or installing temporary buildings on the campus or other locations;
- revising the timetable to allow all of the scheduled teaching to take part in the available facilities. This may include student contact sessions delivered outside of normal office hours. Where we take this approach, we will consult with students and undertake equality impact assessments to assess the effect on students with different needs, characteristics and circumstances;
- delivering parts of programmes via different delivery modes, such as Distance Learning. Where such an approach is taken, we will consider carefully whether this it is appropriate for the enrolled students who would be affected

Risk 6: Withdrawal of Validation/Accreditation

Likelihood: Unlikely

Impact: Major

The BCNO Group Ltd is aware of, and up to date with, the requirements needed to be accredited. Prior to merger, both the BCOM and the ESO successfully underwent GOsC/QAA review in 2017 and 2018.. BCOM also successfully underwent a 5 year Periodic Review by the University of Plymouth, with no conditions and only minor recommendations in 2018, and have processes in place to review and renew as necessary.

If the programme loses its accreditation from the professional, statutory or regulatory body, the BCNO Group Ltd will consider measures to protect the student experience, such as:

- offering students the chance to move to another programme;
- delivering a modified version of the same programme;
- providing assistance to students to switch to a different provider who has the relevant accreditation;
- where the above is not possible, we would support students to transfer to an appropriate programme (possibly at another provider) and, where appropriate, financially compensate them where they suffer demonstrable, material financial loss because of disruption to their studies, under our Compensation and Refund Policy.

6. Refund and Compensation Policy

The BCNO's approach to compensation and refunds where provision ceases to run, or where provision cannot be delivered as per the advertised information, can be found in the Refund and Compensation Policy on our website. The policy clearly outlines the circumstances in which the BCNO Group Ltd will refund tuition fees and other relevant costs to students and to provide compensation where appropriate.

The BCNO Group Ltd has sufficient finances to refund/compensate students where appropriate and this is factored into our annual budgets. The Group is aware that in the changing UK HE financial environment there could be an increase in such claims and subsequent payments and we are now investigating the possibility of whether insurance against such costs can be procured. Parallel to this we will be investing in initiatives that will assist student support and thus increase retention and progression and lessen the likelihood of such claims and payments.

7. Advice, Support and Communication in the event of implementation

Should any of the risks identified in this plan happen and their impact on students is judged to be more than insignificant then the BCNO Group Ltd will act swiftly to offer student suitable advice and support. The nature of the advice and support will vary from risk to risk and depend upon the impact, and will normally be determined in consultation with our accreditation partner, The University of Plymouth, in accordance with our Agreement of Academic Co-operation. Students studying on programmes under validation by Bucks New University at the ESO in Kent are similarly protected through the approved Exit Strategy.

The BCNO Group Ltd is committed to communicating any changes to students as early as possible, setting out clear information and options. Working with the student representatives and student union/association to discuss the changes and providing advice and guidance on the proposed changes and the options that students will have. We will take all reasonable steps to minimise disruption and to enable them to complete their studies as intended. However, where this is ultimately not possible they may, for example as outlined above in section 2:

- be offered a modified version of the same programme;
- be offered the opportunity to move to another programme;
- be provided with assistance to switch to a different provider;
- be offered a financial refund and/or compensation (for cases where it is not possible to preserve the continuation of study or where study is disrupted) in accordance with our Refund and Compensation Policy which can be found on the website. The BCNO Group Ltd's Business Continuity Plan covers other mitigating actions affecting business continuity, such as acts of terrorism, damage to buildings or equipment.

In the event of any conflict between this Plan and our Refund and Compensation Policy then this Plan will apply. Where a student is required to transfer programme, or move to another institution, we recognise that there may be implications for their student finance arrangements. Those affected will be contacted by the BCNO Group Ltd Registrar via email, followed by a face to face meeting and provided with detailed information, advice and guidance based on this Plan and the Refund and Compensation Policy taking account of their individual circumstances.

8. Promotion and Review of the Plan

This Student Protection Plan will be considered annually by the Academic Board and Board of Trustees (which includes student representation) and is available to all stakeholders and prospective students via the BCNO websites. Additionally it is also available for staff and current students to view on our virtual learning environment and referenced in all our offers communications and in the Student Handbook.

The BCNO Group Ltd's Registry is responsible for ensuring staff are aware of and implement the Student Protection Plan. In particular:

- Applicants will be made aware of this plan when an offer to study a course is made
- Current students will be updated on the plan as part of induction exercise in each re- enrolment, and information regarding the plan's location on the website will be routinely provided in student handbooks
- The plan will be published on the staff intranet, and specific staff training activities will be undertaken
- The student protection plan will be referred to in the UoP Academic Regulations for course change and course closure procedures
- The Student Protection Plan is referenced in the Exit Strategy with Bucks New University
- The annual review of the Student Protection Plan by the Academic Board and Board of Trustees will take place after it has received comments from the Programme Committee, where there is student representation.

As part of our quality assurance processes explicit guidance will be given to all Heads of Department, Programme and Module Leaders to be mindful of the requirements of the plan when reviewing programmes and modules. Programme Leaders will be required to state within validation and review documentations (from September 2018 onwards) the level of risk associated with programme closures and/or significant programme amendments and the measure in place to minimise those risks. Programme Leaders will also be required to state in amendment documents how such amendments will be communicated to current and prospective students.

Applicants will be informed of any significant material changes to their

programmes as soon as possible prior to, or at the time, of making an offer.

Review of the Plan & Timeframes

The student protection plan will be reviewed annually by the Academic Board, which includes student representation in the form of programme reps and members of the Student Union, alongside the review of all other policies. Where amendments are suggested these will be discussed initially at Programme Committees in the Autumn term, to which all programme representatives are invited. Final approval will be given by Academic Board and any approved amendments will come into effect the next academic year, therefore all review and amendments will need to be completed by the end of the Spring Term. Students will be involved at all stages of future reviews.

9. Complaints & Access to Independent Advice

Students may raise a complaint regarding the way the plan is or is not being implemented. The Student Complaints Policy is published on the websites, the virtual learning environments and referenced in all programme handbooks.

In the first instance an informal solution will be sought. It is anticipated that the Student Representatives, following consultation with the general student body, will raise any concerns regarding actions under this plan with the Principal or Head of Quality. However, should this not resolve the issue students will have full access to all stages of the complaints procedure, including invoking a formal complaint.

10. Glossary of Terms

Current Student

You will be a current student of BCNO Group Ltd for the purposes of this SPP if you are currently registered for a qualification or, if you are not registered for a qualification, you are either registered for a module or you have studied a module in either of the previous two academic years. You may be registered to study at wither the BCOM or ESO sites in London or Kent respectively.

Module

A module is a self-contained unit of teaching, learning and assessment studied in combination to form a qualification. Each module is assigned a credit value and a level of study. Students enrol on modules that they are studying as part of a registered qualification.

Teach-out arrangements

Teach-out arrangements apply where the BCNO Group Ltd has given notice of a change to the structure or study requirements of a qualification or for its withdrawal. They are the arrangements for students who have registered for or declared that qualification to enable them to complete it within the notice period before the change or withdrawal takes effect.

Undergraduate Student

An undergraduate student is a student who is either:

- a) registered for a module that is designated as an undergraduate module, or

b) registered for a qualification that is designated as an undergraduate qualification or as an integrated Master's degree. An Integrated Master's degree involves study at undergraduate and postgraduate level which leads to the award of a Master's instead of a Bachelor's degree. You will be an undergraduate student even if you are currently enrolled on a postgraduate module as part of that qualification.

Us/WE

Us/We refers to the BCNO Group Ltd

Validated Award

A validated award is University of Plymouth award that has been developed and is delivered by a partner of the University, in this case the BCNO Group Ltd. The University of Plymouth makes sure that the award meets the required academic and quality standards. Up until and including entry for 2021/21, students studying at the ESO (Kent) site are following an award validated by Bucks New University. Thereafter all students will follow programmes validated by the University of Plymouth.

11. Further Clarification and Alternative Formats

If you have any queries around the content provided within this document and how to interpret it, please contact the BCNO Group Ltd Head of Quality in the first instance. If you have any comments about this policy document and how it might be improved, please submit these to Registry also.

If you require this document in an alternative format, please contact the Head of Quality.
